

Gegen Ende des Films treffen sich die Geschwister wieder, als Bhola, ratlos und verzweifelt, ein reiches Kind, ohne vorerst zu erkennen, dass es sich um seine Schwester handelt, um Geld anbettelt. Beschämt rennt er zunächst vor ihr davon, da er und Belu sich eigentlich geschworen hatten, niemals wieder Betteln zu gehen oder Almosen zu akzeptieren. Nach einiger Zeit jedoch kehrt er zu seiner Schwester zurück und wird ebenfalls von deren Familie adoptiert.

Birthday Bytes

Mustabshira (April 19, 2009)

Geburtstag ist wohl ohne Frage der schönste aller Ehrentage.

Drum wollen wir keine Zeit verlieren, zum Wiegenfest Dir gratulieren:
Alles Gute zum Geburtstag Jamini

PC - Treat

- Arun Kumar Voruganti

In every issue of our magazine we will be sharing the best tips and tricks ever for productive working on your personal computer.

Tip 1: Download commercial software for free

Every day <http://www.giveawayoftheday.com> gives away a full-version software for free. One has to install the giveaway on the same day it is offered for free, but it can be used for unlimited time.

Tip 2: Do you hate searching files in XP

Compared to XP, Vista search files tool is advanced and very powerful. Vista users know this and rank it one of the best features of Vista.

XP users can have it too. You need to download the tool and install it on XP machine. "Windows Search 4.0" can be downloaded from <http://www.microsoft.com/>

Tip 3: Improve Vista Speed with a USB stick

Do you know that by plugging-in a USB stick you can improve the performance of your Vista operating system? Yes it's not a joke, it a feature called ReadyBoost in Vista. With ReadyBoost technology, one can use a USB stick as a RAM.

For further details on this technology visit <http://windowshelp.microsoft.com>

Tip 4: Best freebie for boosting PC performance of this issue

WinUtilities is an award winning collection of tools to optimize and speedup your system performance. This suite contains utilities to clean registry, temporary files on your disks, erase your application and internet browser history, cache and cookies, auto-shutdown, schedule applications and many more tools.

We strongly recommend this suite if you want your pc resources to be always in a slim and trim state. You can download it from the link <http://dottech.org/freebies/4945>

Dough-mix before frying

Onion Pakodas

Preparation:

1. Cut the Onions into thin-long pieces. Mince the chillies and fresh coriander.
2. Mix all the flours along with the baking powder, salt, cumin seeds, and with some water. Don't add too much water as the liquid content from the onions might dilute the mix later on.
3. Now add the chopped onions and chillies, and mix the entire stuff for couple of minutes. Make sure that the texture of the dough at the end stays little harder than semi-solid. (See the picture).
4. Heat the oil in a vessel for deep frying.
5. Once the oil is hot enough, put the dough into it as small portions. Fry them until they turn golden brown.
